Re: Application for Interim Certification - OMYA, Inc.  
Solid Waste ID #: RU995 Application #: 2005-40 Project ID #: RU95-0193  
Application Status: Administratively Complete

Dear Mr. Laurent:

We have received and reviewed all the information requested in the August 29, 2005 letter. The application is now administratively complete.

The next step in the review process is for OMYA to notice the application in accordance with §6-305 of the Solid Waste Management Rules, effective October 15, 2004 (Rules). Please note that there is a fifteen (15) day public comment period associated with this notice. Enclosed is a revised Public Notice for your use. You will have to schedule the publication dates with the newspapers and modify the notice to include the end date for the public comment period. The comment period ends a minimum 15 days from the date of latest newspaper publication.

You must ensure that all administrative information provided to us is included with the application on file with the Town of Pittsford. In addition, please ensure that a copy of the September 14, 2005 memorandum from Sanborn and Head and Associates entitled *Evaluation of Numerical Modeling Constituents. OMYA Verpol Plant Tailings Management Areas. Florence, Vermont* submitted in technical support of the application is on file with the Town of Pittsford. Please ensure that copies of these documents are on file prior to the initiation of the public comment period.

Please submit a copy of the newspapers with the notice or the newspaper tear sheets so that we know that notice occurred and when the public comment period closes. Thank you.

Should you have any questions concerning the application or this letter, please contact me by e-mail or by phone at the above address/number.

Sincerely,

Dennis Fekert
